

carlee smith & gary savage duo

Uncovering the true talent of Carlee's voice, with purist clarity, is found with the lone accompaniment of the acoustic guitar. Performing with guitarist, Gary Savage, their harmonies capture the jazzy sounds of the 40s, and take it full spectrum, into the funky R&B music of today. Swing, mixed with a contemporary flavor and rhythm, sets their music apart. Their intimate performances create a unique, satisfying ambience that brings audiences to tears, or leaping to their feet. You won't want to miss this compassionate duo. See Carlee and Gary performing live, as *Carlee Smith Unplugged*.

gary savage:

Gary was coaxed into private piano lessons at the age of 10, but his true desire was to play the guitar. At 13 he embarked upon private guitar lessons, and soon began playing and singing in rock bands throughout the Portland area. Gary has performed around the NW and throughout Canada, including a year-long tour with Jan & Dean.

Gary has degrees in Radio and TV Broadcasting and Music Theory. He also completed a sound engineering program which led to a job writing and performing jingles. He is back in Portland where he currently owns and engineers *Diamond Recording Studios*.

Positively Entertainment magazine labels him an "excellent musician" and "out of this world performer". Instrument list includes guitar, saxophone, harmonica, and vocals.

carlee smith:

I have been involved in music since a very young age. My first memories include listening to Ella Fitzgerald, Aretha Franklin, and Bonnie Raitt. I am drawn to Jazz, but R&B moves my soul. It's where my passion and dreams come alive with original lyrics that touch the heart. I have discovered a heightened inspiration in my singing that has infused my music with more passion and power than ever before. Music and singing has been a big-part of my life for over twenty years. I am now proud to sing with Gary Savage in *Carlee Smith Unplugged*.
